

MAIZE

LS Marelia

Ultra early hybrid with fast dry down, strong density tolerance and excellent digestibility.

- ✓ Hybrid with ultra short cycle and very fast dry down
- ✓ High share of ears – excellent digestibility

- ✓ Adaptability to high plant densities with good mineral nutrition

IDENTITY

TYPE

Flint - soft flint

MARKET

Grain and silage

GENETIC

Three way cross hybrid

EARLINESS

Ultra early

REGISTRATION

2020 – European Union

AGRONOMIC PROFILE

EARLY VIGOR

Very good

MORPHOLOGY

Fast vegetative and generative growth

PLANT HEIGHT

Short

EAR INSERTION

Low

LEAF

Semi erected

DRY DOWN

Very fast

LODGING RESISTANCE

Good

TECHNOLOGICAL QUALITIES

FEEDING VALUE & DIGESTIBILITY

Excellent digestibility

MILK / MEAT F.U.

High energy

PDIN / PDIA

High productivity of starch

CULTIVATION ADVICE

- > Plant between 120,000 and 130,000 seeds per hectare
