

MAIZE

Smyrna

Early silage hybrid offering strong yield potential and solid agronomic performance.

✓ Early silage corn

✓ Excellent yield potential

AGRONOMIC PROFILE

Early vigor	10/10	Morphology	9/10
Plant height	6/10	Ear insertion	3/10
Flowering earliness	3/10	Disease profile	9/10
Lodging resistance	9/10		

SILAGE MATURITY (32% DM)
1,390°C

GRAIN MATURITY (35% MOISTURE)
1,630°C

IDENTITY

TYPE
Flint to semi flint

MARKET
Silage

GENETIC
3-way cross

EARLINESS
Early – B group

REGISTRATION
2017 – European Union

TECHNOLOGICAL QUALITIES

Feeding value	9/10
Digestibility	9/10

CULTIVATION ADVICE

- › Silage target: 1,390°C (32% DM)
- › Grain target: 1,630°C (35% moisture)
