

MAIZE

# ZETA 200

Very early silage hybrid with strong yield potential, high feeding value and good adaptation to dense stands.

- ✓ Excellent silage yield potential
- ✓ Well adapted to high population density
- ✓ Very good feeding value
- ✓ Fast maturation allowing an optimal harvest

## AGRONOMIC PROFILE

Early vigor **9/10**

Plant height **5/10**

Flowering earliness **3/10**

Lodging resistance **10/10**

SILAGE MATURITY (32% DM)  
**1,370°C**

Morphology **10/10**

Ear insertion **3/10**

Disease profile **10/10**

GRAIN MATURITY (35% MOISTURE)  
**1,610°C**

## IDENTITY

TYPE

**Semi-dent**

MARKET

**Silage**

GENETIC

**3-way cross**

EARLINESS

**Very early (A group)**

REGISTRATION

**2010 – European Union**

## TECHNOLOGICAL QUALITIES

Feeding value **9/10**

Digestibility **9/10**
